

Tellerchex BY CERTEX

INSTANT MICR CHECKS FOR
FINANCIAL INSTITUTIONS

CREATE CUSTOMIZED
MICR DOCUMENTS
IN MINUTES...

Tellerchex software system streamlines check issuing by providing on-demand checks right at the teller line. Tellerchex provides your customers with a number of financial documents instantly, eliminating delays and improving customer relations. The broad capabilities of Tellerchex can raise staff productivity while increasing security and overall efficiency. This Windows®-based software operates on wide area networks as well as local PC systems utilizing a laser printer equipped with a MICR (Magnetic Ink Character Recognition) toner cartridge.
